

iPhone Asset Kit

October 2021

Let's make something great together.

Use the assets provided with this guide for marketing Apple products.

①

Guidance

Design and messaging guidance to help you develop your marketing materials

②

Product assets

Apple product images and copy

③

Accessories and related products

Images and copy for accessories and related products

④

Resources

Print production guidelines, trademark information, and additional resources

①

Guidance

As you create your marketing campaign, express your brand identity in a way that complements Apple product images and copy.

Less is more.

Strive for simple, clean, and uncluttered communications.

The product is hero.

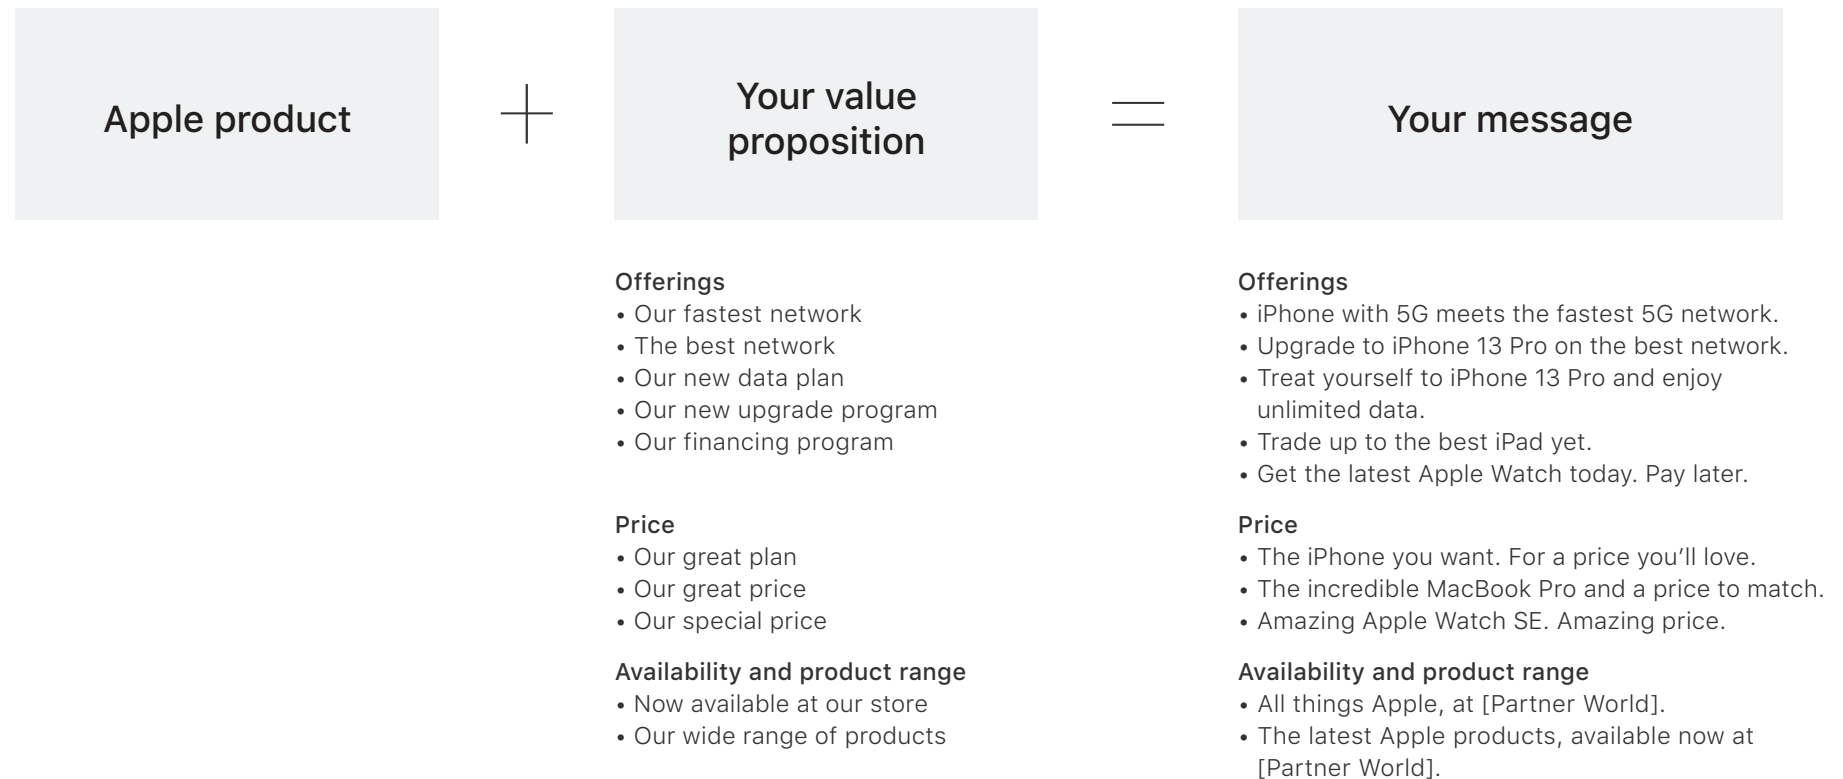

Present product image as the visual focus and not one of many.

Keep it simple.

Develop messaging that clearly conveys why a customer should buy an Apple product from you.

Messaging guidance

Your headline and message should help customers understand why they should buy Apple products from you. It should be a formula of what's great about your offer and why it's even better with Apple products. When added together, the results should be the best thing for the customer. See the examples below.

Design guidance

As you create your marketing communications, express your brand identity by using your brand fonts and colors in a way that complements Apple product images and copy.

- The product should be the hero of your communications and should not be one of many messages or offers.
- Be sure the product is clearly visible. Use the product images as provided; do not place them in, on, or under other objects.
- The height of the image should be at least 40% of the vertical media dimension.
- For guidance on product logo placement, refer to the relevant page in this guide.

②

Product assets

This section gives you an overview of marketing materials, images, and copy for all products in the lineup. Use these assets across multiple media, including paid media,* online store, in-store, social, and email communications.

*Please refer to the usage guidelines in the Resources section for guidance on in-store signage, media, and promotions.

Headlines

- Lots to love. Less to spend.**
- Small iPhone. Huge performance.**
- The best 4.7-inch iPhone yet.**
- A popular design. Now with more to love.**
- More power to small.**
- Portrait mode. Now on a 4.7-inch iPhone.**
- So much to love. So little to hold.**
- The most powerful 4.7-inch iPhone ever.**

Advertising copy

iPhone SE. Powerful A13 Bionic chip. Portrait mode and 4K video. Beautiful 4.7-inch Retina HD display and Touch ID.¹ And long battery life.² It's the iPhone that's small in size but big on power.

Key feature bullets

Include all features whenever possible. When space is limited, use the bullets in order.

- 4.7-inch Retina HD display¹
- Water and dust resistant (1 meter for up to 30 minutes, IP67)³
- 12MP Wide camera; Portrait mode, Portrait Lighting, Depth Control, next-generation Smart HDR, and 4K video
- 7MP front camera with Portrait mode, Portrait Lighting, and Depth Control
- Touch ID for secure authentication
- A13 Bionic chip with third-generation Neural Engine
- Fast-charge capable
- Wireless charging⁴
- iOS 15 packs new features to do more with iPhone than ever before⁵

Legal

¹Display size is measured diagonally.

²Battery life varies by use and configuration. See apple.com/batteries for more information.

³iPhone SE is splash, water, and dust resistant and was tested under controlled laboratory conditions; iPhone SE has a rating of IP67 under IEC standard 60529 (maximum depth of 1 meter up to 30 minutes). Splash, water, and dust resistance are not permanent conditions and resistance might decrease as a result of normal wear. Do not attempt to charge a wet iPhone; refer to the user guide for cleaning and drying instructions. Liquid damage not covered under warranty.

⁴Qi wireless chargers are sold separately.

⁵Some features may not be available for all countries or all areas.

Technical specifications

Go to apple.com/iphone/compare for a complete set.

iPhone SE

Product name guidelines

- For headlines and copy, use uppercase letters for SE without adjustments. There is no space between S and E. Do not spell out *Special Edition* or any other term for SE.

iPhone SE (PRODUCT)RED

- Product name should always appear in the headline: iPhone SE (PRODUCT)RED.
- Use iPhone SE product copy provided above.
- If you would like to reference the cause, use the following copy: A portion of the proceeds from every (PRODUCT)RED purchase goes to the Global Fund.

¹The display has rounded corners. When measured as a rectangle, the screen is 5.42 inches diagonally. Actual viewable area is less.

²iPhone 12 mini is splash, water, and dust resistant and was tested under controlled laboratory conditions with a rating of IP68 under IEC standard 60529. Splash, water, and dust resistance are not permanent conditions. Resistance might decrease as a result of normal wear. Do not attempt to charge a wet iPhone; refer to the user guide for cleaning and drying instructions. Liquid damage not covered under warranty.

³Some features may not be available for all countries or all areas.

⁴Accessories are sold separately.

Guidance

When using these images, please include the following legal line beneath your PDP gallery: This case is made with high-quality, supple leather to protect your iPhone. Leather is a natural material and like a fine leather belt, it may show creases, marks, or a patina over time. Interaction with MagSafe accessories will leave slight imprints (as shown in the last image of the gallery). If you're concerned about this, Apple suggests using a non-leather accessory.

App Store & iTunes Gift Card

iOS 15

iOS 15

AppleCare

Note: Not all markets sell AppleCare+ or AppleCare Protection Plan. Use these assets only if the relevant product is available in your market. Please contact your Apple Marketing representative for copy and guidance.

App Store & iTunes Gift Card

iOS 15

Headline

A gift that keeps on giving.

iOS 15. In touch. In the moment.

Copy

Give friends and family an App Store & iTunes Gift Card—available in many denominations. Let them choose anything from the App Store, the iTunes Store, and Apple Books or put it toward Apple Music subscriptions and iCloud storage plans.

iOS 15 lets you keep the conversation going while sharing movies, music, or whatever's on your screen, right in FaceTime. Stay in the zone by filtering out any notifications that aren't relevant to the task at hand. And interact with text in images to quickly send email, make calls, get directions, and more.

④

Resources

In this section, you'll find print production guidelines, trademark information, and additional resources available to you and your team.

Print production guidelines

Files—Mechanicals and images

Mechanicals are provided as Adobe CC 2019 files with links to the images (product shots, logos, and so on). The product photography is supplied as high-resolution flattened TIFF files. All campaign files will use the CMYK assets.

Proofs, color matching, and press checks

Each deliverable must be reviewed on press before a job is authorized to print. This is the final opportunity to ensure an accurate match to the supplied proofs and overall print quality. Please match the proofs as closely as possible during your press checks. Please watch closely for subtle details. Be patient and persistent until the desired results are attained.

Printing materials

As a general rule, avoid substrates with a gloss finish. The Apple standard is to employ a silk or matte finish for all materials, including paper, styrene, vinyl, fabric, and so on. Use the best-quality grade materials available when printing Apple support materials. Consult your regional print production manager for guidance if needed.

Note about G7-certified printers

For CMYK printing (offset or digital), we highly recommend printers who are G7 certified. G7 is a trademark process for achieving gray balance and for the proof-to-print process. It is based on the principles of digital imaging, spectrophotometry, and computer-to-plate technologies. The newest methodology utilizes the most current ISO standards as the basis for high-quality printing. We have found we achieve the best results using G7-certified printers.

Trademarks

Product names

Apple product names must appear exactly as shown on the Apple Trademark List. For example, when using the name *iPhone* or *iPad* in headlines or text, always typeset *iPhone* and *iPad* with a lowercase *i* and an uppercase *P* followed by lowercase letters. The names *iPhone* and *iPad* should start with a lowercase *i* even when they are the first word in a sentence, paragraph, or title.

Most Apple product names are trademarks. Never translate an Apple trademark. Always use trademarks in English even when they are surrounded by text in a language other than English. Always use Apple product names in singular form. Do not use plural form. Do not make possessive. Never say *Apple Watches* or *iPhone's*. Modifiers such as *models*, *types*, or *devices* can be plural or possessive.

Using the name *Apple* in text

Business and consumer-facing communications may refer to the company name as *Apple*. The legal company name, Apple Inc., is reserved for legal documents.

Trademark and legal information

As a reminder, you must obtain Apple's prior written approval before using *Apple* or any other Apple trademark, service mark, and/or product image in any advertising or marketing collateral in a manner not expressly permitted by Apple policies and guidelines provided herein. Additionally, any advertising content provided by Apple to you shall only be used in strict accordance with the use guidelines, specifically use periods, provided by Apple.

Please review the [Apple Trademark List](#) for the latest Apple trademarks when you create marketing materials. See [Guidelines for Using Apple Trademarks and Copyrights](#) for more information.

If you have questions after you have reviewed the information provided on the Apple legal website at apple.com/legal, contact the Apple Trademark Department by email (appletm@apple.com). Allow up to one week to receive a reply.

Usage guidelines

In-store signage

- Premium locations and media are preferred.
- Avoid backlit fixtures and digital screens.
- Place at eye level.
- Avoid cluttered environments.
- Limit the number of tabletop signs.

Media guidance

- **Print:** Full-page or page-dominant 4-color ads are required; digital formats of print publications are permitted.
- **Out-of-home:** Large format (billboards, spectaculars, dioramas, airport banners) and street-level (bulletin, bus shelter, kiosk, city light panel, mall, transit station, static digital OOH) are permitted. To discuss large-format or window opportunities, please contact your Apple Marketing representative.
- **Online display (mobile, desktop):** Media should appear above the fold. Conquesting of competitive content, targeting within email environments, ads on gaming consoles, behavioral or IP address targeting or retargeting, and third-party data added to media buys are not permitted. Use HTML5, DHTML/HTML4, animated GIF, or static GIF technology only.
- **Search engine marketing:** Include the featured product in the headline while focusing on third-party relevance. Use of generic terms or modifiers is approved where applicable.

Promotions

Marketing promotions require approval.

Video

Please do not produce product videos.

Partner apps

Apps that you've developed must be marketed separately from your marketing of Apple products. Follow the App Store Marketing Guidelines for developers at developer.apple.com/app-store/marketing/guidelines.
